

For Earth, For Life  
**Kubota**

**GR**

**KUBOTA LAWN & GARDEN TRACTORS**  
**GR2020/GR2120**

**DIESEL &  
GASOLINE**

Cut down your mowing time while manicuring your lawn, with Kubota's revolutionary 'Glide Steer' technology.

*Revolutionary Technology:*

**GLIDE  
STEER**

# **GR20 Series with Glide Steer technology excels where 4wd traction and efficient mowing are needed.**

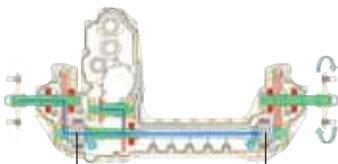

*Revolutionary Technology:*

# **GLIDE STEER**

Only revolutionary technology by Kubota could enable the GR Series to turn so sharply, yet minimize potential turf damage to levels below standard 2wd lawn tractors. Offering precise control and exceptional traction with 'Glide Steer', GR Series tractors not only cut in confined areas, they cut down overall mowing time as well. Add it all up, and you have the most maneuverable and powerful lawn tractor Kubota has ever built.

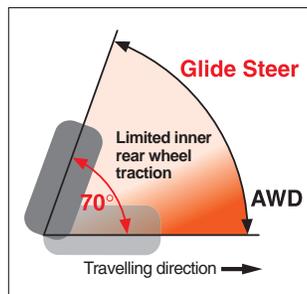

## **Glide Steer**

*Here's how our technology works. When starting a turn on either the GR2020 or GR2120, the inside rear wheel begins to track freely. This enables a tight turn while preventing damage to the turf.*

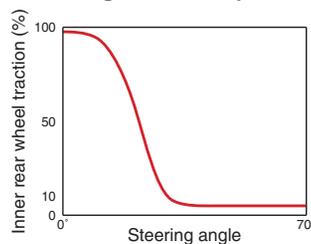

Limited inner rear wheel traction

GASOLINE VERSION DIESEL VERSION

**Outstanding Traction**

*When driving in a straight direction, the GR Series provides outstanding traction with all-wheel drive.*

**Sharp Turning**

*To provide the sharpest turn possible, both front wheels turn an incredible 70 degrees.*

**Outstanding Traction**

*Once the front wheels are straight again, the GR Series resumes all-wheel drive.*

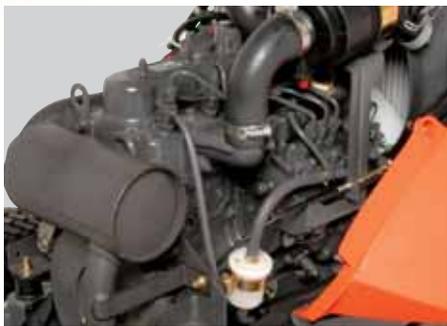

# Performance

You demand the best. The GR2020/GR2120 deliver.

Unmatched in its class, Kubota incorporates advanced farm tractor technologies in every GR Series lawn tractor.

## Powerful Engine

Tapping Kubota's legendary heritage of quality engine design, the GR2120 is powered by a Kubota 21-horsepower, 3-cylinder diesel engine. The GR2020 has a 2-cylinder, high-performance gas engine. These engines generate a high torque rise that easily handles hours of heavy-duty mowing.

*Diesel Engine*

*Gasoline Engine*

## Hydrostatic Power Steering

Soft-touch power steering enhances maneuverability, reduces fatigue, and makes operating both the GR2020 and the GR2120 nearly effortless.

# Turf

**Our 48-inch and 54-inch mower decks ensure professional results.**

All GR mower decks are constructed of durable 10-gauge steel and designed with a 5-inch deep shell to assure professional and lasting results. And with an easy to reach cutting height adjustment dial and hydraulic mower deck lift, your professional results just became easier to manage. For even finer clippings, an optional mulching kit is also available.

## New HST Transmission

Kubota's reputable HST transmission is easily controlled by a single foot pedal, and produces a smooth and comfortable ride.

*Easy reach cutting height adjustment dial*

*Hydraulic mower lift lever*

## Mulching Kit (Optional)

A one-piece unit that's easy to install, our mulch system makes clippings disappear into your grass, creating a healthier lawn.

## "Catch All" Grass Catcher (Optional)

Incredibly sturdy yet lightweight, the large-capacity, 10-bushel grass catcher lets you mow longer with fewer stops for emptying.

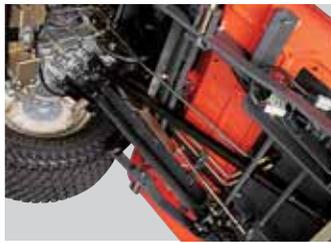

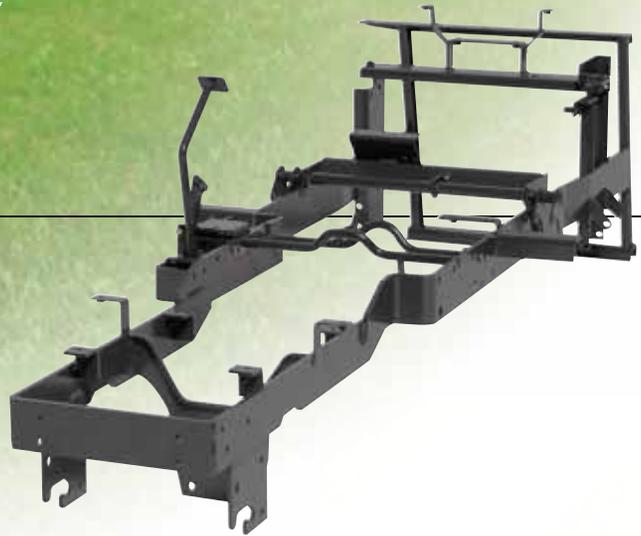

# Durability

Years of resilient service.

## Enhanced Durability

Starting with a 3/16-inch U-frame platform, every component from the ground up has been designed to provide significant durability for years of service. Hydraulic PTO and shaft drives are only a few farm tractor features that distinguish the GR from its competition.

## Shaft-drive Transmission

Unlike a belt-drive transmission utilized in conventional mowers, our low-maintenance shaft-drive transmission will provide years and years of reliable service.

## Shaft-drive PTO/ Hydraulic PTO Clutch

Conventional mowers utilize electric, belt driven PTOs, but our mowers don't. Our shaft-drive mower deck and hydraulic PTO clutch deliver reliability with far less maintenance. No more belts and pulleys to maintain.

## Implements

**Grass Catcher (GCK54-GR)**

**48" Front Blade (GR2705)**

**46" Snow Blower (GR2707)**

# Comfort

Maximum comfort for maximum output.

## Suspension Seat/Full-flat Operator Platform

Oversized and generously padded, the GR2020 and GR2120's suspension seat can be adjusted to provide a high level of comfort to a wide range of operators. The full-flat open platform minimizes operator fatigue by offering plenty of legroom. For additional comfort, optional arm rests are available.

# Specifications

Model		GR2020G	GR2120
<b>Engine</b>			
Model		GH631	D782
Type		2 cylinders, gasoline, air cooled	3 cylinders, diesel, water-cooled
Total displacement	cu.in. (cc)	39.1 (624)	47.5 (778)
Gross horsepower	HP (kW)	20.5 (15.3)*1	21.0 (15.6)*2
Engine layout		Horizontal	
Fuel tank capacity	gal. (ℓ)	4.2 (16)	4.8 (18)
<b>Dimension</b>			
Overall length	inch (mm)	77.2 (1960)

<b>Minimum uncut diameter</b>	inch (mm)	43 (1100)	43 (1100) / 35 (900)
<b>Mower deck ground clearance</b>	inch (mm)	5.5 (140)	

\*1 Power (hp) specifications for individual gasoline engine models are rated pursuant to Society of Automotive Engineers (SAE) J1940 based on gross output testing performed in accordance with SAE J1995 without the air cleaner and muffler. Gross engine hp will be higher than actual engine power which is affected by accessories, application, engine speed, ambient operating conditions and other factors. The gross engine horsepower information is for comparison purposes only.

\*2 SAE J1995

The company reserves the right to change the above specifications without notice. Please contact your local Kubota dealer for warranty information.
